

Strategic Analysis Open House, May 27, 2016

- Participant(s) was supportive of the data collection. Participant(s) indicated that data will provide information we need to recruit, for example, women and international students.
- Participant(s) stated that it is our responsibility to disclose the information, then let the campus decide what direction to go. The data will help us make an informed, data driven, decision.
- Participant(s) noted that in the college-level enrollment section of the report, department policies in place could affect enrollment.
- Participant(s) discussed the large variation in program requirements for admission and graduation and the number of units required to complete the program.
- Participant(s) stated that the data gives us a starting point, this information has never before been collected.
